

On page 16 of the Specification:

Replace the first full paragraph beginning “Table 1 shows results...”, with the replacement paragraph as follows:

Table 1 shows results of measured AA in several exemplary test subjects on whom versions of the method **10** of the present invention were performed. The evaluations were conducted under standard conditions. The near-vision visual acuity test comprised the Jaeger Test, using cards J16, J5 and J2. The predetermined range **24** was identified to be 20 centimeters long and having a nearest point **20** distance range of between 20 centimeters and 40 centimeters from each test subject’s eye **12** on the basis of the relatively straight line relationship of overall lens power between 20 cm and 40 cm (overall power = 5D at 20 cm and 2.5D at 40 cm).

(~~See~~Refer to Figure 16~~Graph 1, supra.~~)
